

Blast Hose SM-2

This high quality brand belongs to the product group "pressure blast systems". Only the perfect configuration and match of all system components in a blast machine enable maximum blasting efficiency. Therefore Clemco offers an extensive and complete range of quality products.

Blast Hose SM-2

A modern blast hose in general is a complex combination of various raw materials and layers of such. Highest safety demands as a pressure rated rubber product, needs to be met by its outer design. The interior material compound determines the lifetime. Our blast hose consists of an antistatic and extreme abrasion-resistant inner core.

Length	20/40m
