

## **Power Injection Gun Universal with Water Supply**

This high quality brand belongs to the product group “Injector blasting”. The mobile, portable, and simple operating blasting system provides progressive work rates and long-lasting power.

- **Effective spot-blasting**
- **Flexible mobility**
- **Simple operation**

### **Power Injection Gun Universal**

The Power Injection Gun is a suction blast system optimized to provide a next to pressure blasting performance. Low weight and good handling makes the injection gun a perfect unit for small and fast changing on-site jobs. Highest mobility, easy operation and a low cost make this unit very often the preferred choice over a pressure blast system. The Universal-Version has an additional water connection which makes it a dust-free blasting unit. Highest flexibility is guaranteed with different operation modes.

Area of application	water supply for dust-free blasting base surface preparation removing of paint, rust, dirt and scale roughening subsequent blasting of mounted parts
Water pressure	min. 2 bar
Water consumption	0 - 2,5 l / min
Abrasive media	suitable for every common media
Maximum grain size	1,5 mm
Media consumption	50 - 150 kg/h
Blasting pressure	0 < > 12 bar
