

Product Information

Streamer S 250 VE Vertical Shot Blast Machine

- The **STREAMER S250 VE** from **IMPACTS GmbH** is a very powerful, but compact and light-weight mobile blast machine for vertical steel surfaces.
- The combination of the powerful wheel motor and an optimized separation system makes the S250V very efficient.
- The S250V has been specially developed to achieve high blasting production on medium sized steel areas located on ship walls and tanks.
- The Streamer S250V is controlled by a winch fixed atop the ship or tank. The winch is not included in the delivery package

In order to reach the optimal blasting capacity and performance, it is recommended to use the **Streamer S 250VE together with the **IMPACTS dust collector Dustcom 3324**.*
